

PROJECT PROPOSAL

PREPARED FOR

Randy Adamson

24 Falvo Street
Wasaga Beach, Ontario

PROPOSAL DATE

May 9, 2026

VALID FOR

30 Days

A PERSONAL NOTE

Welcome to a Refined Vision

Randy, thank you for trusting Golden Maple Landscaping with your backyard transformation. Following our conversations after the original agreement was signed, this revised proposal incorporates the additional scope you've asked us to take on — an expanded paver footprint, a pair of natural limestone steps, and a mini-armour stone riser detail that ties the new grade change into the patio with the same stonework discipline as the rest of the build.

Every square foot of this project will be installed to the same Interlocking Concrete Pavement Institute standards we hold ourselves to on every job: a compacted HPB base, Gator Base composite panels for long-term load support, polymeric sand joints, and proper edge restraint. As a **CMHA Certified Concrete Paver Installer** and an authorized **Techo-Pro Contractor**, our crew brings manufacturer-grade training to the work — and we back it up with a **5-year hardscape craftsmanship warranty** on everything we build for you.

This document supersedes the previously signed proposal in its entirety. All original scope is preserved; the revised pricing, materials, and timeline below reflect the complete, expanded build. Once you've had a chance to review, a quick signature on page seven moves us into scheduling for a Spring 2026 start.

Please don't hesitate to reach out by phone or email with any questions ahead of signing — about the materials, the build sequence, the warranty, or anything else. I want you to feel completely confident in what you're signing for. We'll be there with you from the first cut to the final sweep.

With craftsmanship,

Yorkis Estevez

Yorkis Estevez · Owner & Lead Installer
Golden Maple Landscaping Inc.

WHAT'S NEW IN THIS REVISION

- ◆ + 95 sqft paver expansion (1 additional pallet of Windermere 70mm)
- ◆ + 2 limestone steps (4× Oakville Antique Rockface Treads, 16" × 48" × 2")
- ◆ + Mini-armour stone riser course (1 pallet)
- ◆ + \$3,000 labour and \$100 disposal applied to revised totals

CMHA Certified Paver Installer

Techo-Pro Contractor

5-Year Hardscape Warranty

SECTION ONE

Scope of Work

START	BUILD DURATION	HARDSCAPE WARRANTY
Spring 2026	4 Days	5 Years

PROJECT OVERVIEW

Lift, relay, and expand the existing backyard patio at 24 Falvo Street using Windermere 70mm pavers on an upgraded HPB and Gator Base foundation. The revised scope adds a 95 sqft paver expansion and a two-tread limestone step system framed by a mini-armour stone riser detail — extending the usable patio footprint and resolving the grade change into the lawn with permanent natural stonework.

SERVICES PROVIDED

- 01

Patio Lift & Foundation Upgrade

Carefully lift and palletize all existing field pavers. Excavate and regrade the base. Install fresh High-Performance Bedding (HPB) and a full Gator Base composite panel system for long-term structural performance and frost resistance.
- 02

Patio Relay & Expansion

Relay the existing Windermere Cliffside Grey Textured pavers and lay one additional pallet of Windermere 70mm pavers to expand the footprint by approximately 95 sqft. Maintain the original Charcoal Black perimeter banding around the full new perimeter for a clean, framed finish.
- 03

Limestone Steps & Mini-Armour Stone Risers

Build two natural-stone steps using four Oakville Antique Limestone Rockface Treads (16" × 48" × 2"), set on a compacted base and bonded to a mini-armour stone riser course. Hand-cut and dry-stacked for a sculptural, permanent finish.
- 04

Joint Stabilization & Site Restoration

Sweep and activate polymeric sand in all paver joints, install concealed edge restraint at all open edges, and complete final site cleanup. Disposal bin on site for the duration; all excavated material removed at completion.

SECTION TWO

Revised Estimate

Line Item	Detail	Amount
Materials	Windermere 70mm pavers (existing + 1 added pallet for 95 sqft expansion), Charcoal Black banding, polymeric sand, edge restraint, HPB, Gator Base, mini-armour stone pallet, 4× Oakville Antique Limestone Rockface Treads	\$7,327.24
Disposal	Bin rental, haul-away of excavated material and debris (includes +\$100 for revised scope)	\$550.00
Labour	Lift & relay, foundation rebuild, 95 sqft expansion install, step build, finishing (includes +\$3,000 for revised scope)	\$8,400.00
Subtotal	Materials + Disposal + Labour	\$16,277.24
HST	13% Harmonized Sales Tax	\$2,116.04
PROJECT TOTAL	All-in, contract price	\$18,393.28

WHAT'S INCLUDED

- ◆ Lift, palletize, and protect all existing field pavers
- ◆ Excavation, regrade, and base prep to ICPI standard
- ◆ HPB bedding + Gator Base composite panel foundation
- ◆ Relay of existing Windermere Cliffside Grey Textured field
- ◆ 1 additional pallet of Windermere 70mm pavers (95 sqft expansion)
- ◆ Continuous Charcoal Black perimeter banding around full footprint
- ◆ 1 pallet mini-armour stone for step risers
- ◆ 4× Oakville Antique Limestone Rockface Treads (16" × 48" × 2"), 2 built steps
- ◆ Polymeric sand joint sweep + activation
- ◆ Concealed edge restraint at all open edges
- ◆ Disposal bin on site, haul-away of all material
- ◆ Final cleanup and site restoration
- ◆ 5-year Golden Maple hardscape craftsmanship warranty

OPTIONAL UPGRADE

In-Lite Landscape Lighting

An optional add-on package — separate from the contract above and priced independently. Add the following to your project at any time before scheduling to elevate the patio into evening use.

Why In-Lite. Premium low-voltage landscape lighting hand-built in the Netherlands. Marine-grade **brass and 316 stainless steel** construction, sealed for permanent outdoor use, and backed by a **5-year manufacturer warranty**. The same system specified on luxury residential and architectural projects across Europe and North America. Materials below are passed through to you **at our cost** — no markup.

PACKAGE SCOPE

- ◆ 4× In-Lite EVO HYDE 180 Dark facade lights
- ◆ 1× In-Lite HUB-100 transformer (100W capacity)
- ◆ Low-voltage main cable + watertight connectors
- ◆ Professional installation, fixture aiming, and commissioning

Line Item	Detail	Amount
Materials (at cost)	In-Lite EVO HYDE 180 Dark fixtures, HUB-100 transformer, cable and connectors — passed through at supplier cost	\$724.65
Labour	Layout, trenching, fixture install, transformer mounting, commissioning	\$400.00
Subtotal	Materials + Labour	\$1,124.65
HST	13% Harmonized Sales Tax	\$146.20
LIGHTING PACKAGE TOTAL	Optional — add to contract any time before scheduling	\$1,270.85

How to add this package. To include the In-Lite lighting package in your build, indicate so by reply email when returning the signed proposal, or simply let Yorkis know at the pre-build walkthrough. We'll add a single-line addendum to the contract — no need to re-sign the main document. Lighting work is performed during the same build window as the hardscape, with no additional schedule impact.

SECTION THREE

Payment Schedule

Stage	Trigger	Amount
01 · Booking Deposit	Due upon signing — secures your spot on the schedule	\$500.00
02 · Second Deposit	Due 1–2 days prior to project start	\$8,946.64
03 · Final Balance	Due upon project completion and walkthrough	\$8,946.64
CONTRACT TOTAL	HST included	\$18,393.28

PAYMENT OPTIONS

- ◆ **E-transfer** — auto-deposit to **goldenmaplelandscaping@gmail.com** (preferred).
- ◆ **Cheque** — payable to **Golden Maple Landscaping Inc.**
- ◆ **Cash** — accepted with receipt issued.
- ◆ **Credit Card** — accepted with 3% surcharge; advance notice required.

WHAT TO EXPECT AFTER SIGNING

- 01

Confirmation & Booking
We confirm receipt of your signed proposal and booking deposit, then lock your project into the Spring 2026 schedule.
- 02

Pre-Build Walkthrough
Yorkis walks the site with you to confirm layout, finished elevations, step placement, and access for the disposal bin.
- 03

Build Window
Materials are staged the day prior. The 4-day build runs continuously, weather permitting, with the same crew start to finish.
- 04

Final Walkthrough & Handover
We walk the finished work together, activate the polymeric sand joints, register your 5-year warranty, and collect the final balance.

SECTION FOUR

Proposal Sign-Off

TOTAL CONTRACT FEE — HST INCLUDED

\$18,393.28

Optional In-Lite Lighting Package available separately at \$1,270.85

FIVE STEPS TO BREAK GROUND

- 01 Review**
Read this proposal in full, including the Terms, Conditions & Warranty section that follows.
- 02 Sign**
Sign and date below — this document supersedes the previously signed proposal in its entirety.
- 03 Return**
Return a signed copy by reply email to info@goldenmaplelandscaping.ca.
- 04 Deposit**
Send the \$500 booking deposit by e-transfer to goldenmaplelandscaping@gmail.com to lock your slot.
- 05 Schedule**
We confirm your Spring 2026 start window and walk you through day one.

CMHA Certified Paver Installer • Techo-Pro Contractor • 5-Year Hardscape Warranty • HST #712237155RC0001

SECTION FIVE

Terms, Conditions & Warranty

1. Background

This Agreement (the "Agreement") is made between Golden Maple Landscaping Inc. (the "Contractor") and Randy Adamson (the "Customer") in respect of the property at 24 Falvo Street, Wasaga Beach, Ontario (the "Worksite"). This Agreement supersedes in its entirety any prior proposal or agreement between the parties for the Worksite.

2. Services Provided

The Contractor agrees to provide all labour, materials, equipment and supervision required to perform the Services as described in the Scope of Work and Revised Estimate sections of this proposal. Any work not expressly included in those sections is excluded unless added by written change order signed by both parties.

3. Term of Agreement

This Agreement commences on the date of the Customer's signature and continues until the Services have been completed and the final payment has been received in full. Scheduling of the build window is targeted for Spring 2026, subject to weather, ground conditions, and material lead times.

4. Additional Terms and Conditions

4.1 Worksite Photography. The Customer grants the Contractor a non-exclusive, royalty-free licence to photograph the Worksite before, during and after the Services for use in the Contractor's portfolio, website and marketing materials. The Customer's name and street address will not be published without separate written consent.

4.2 Surplus Materials. Any surplus materials remaining on completion of the Services (including but not limited to pavers, banding, mini-armour stone, polymeric sand and base aggregates) are the property of the Contractor and may be removed from the Worksite at the Contractor's discretion.

5. Deposits, Payments and Interest on Late Payments

Payments are due in accordance with the Payment Schedule set out in this proposal. The booking deposit secures the Customer's position on the Contractor's schedule and is non-refundable once material orders have been placed. Any payment not received by its due date will accrue interest at the rate of **five percent (5%) per month, compounding monthly**, from the due date until paid in full. The Contractor reserves the right to suspend or delay the Services for non-payment.

6. Customer Obligations

The Customer shall: (a) provide safe and unobstructed access to the Worksite during scheduled work hours; (b) ensure the Worksite is clear of vehicles, personal property, pets and obstructions before the build window begins; (c) provide reasonable access to water and exterior electrical outlets; (d) identify and locate any private utilities, irrigation lines, low-voltage cables, septic components or underground structures not covered by Ontario One Call; and (e) be available, in person or by phone, for the pre-build and final walkthroughs.

7. Concealed or Unknown Conditions

If the Contractor encounters concealed or unknown subsurface conditions (including but not limited to buried debris, contaminated fill, unstable soils, unmarked utilities, abandoned footings, or existing drainage issues) that materially differ from those reasonably anticipated, the Contractor shall promptly notify the Customer. The parties shall agree in writing on an adjustment to the price and/or schedule before the affected work proceeds.

8. Capacity / Independent Contractor

The Contractor is engaged as an independent contractor and not as an employee, partner, agent or joint venturer of the Customer. The Contractor is responsible for its own taxes, WSIB coverage, and liability insurance. Nothing in this Agreement creates any relationship of employment between the parties.

9. Right of Substitution

Where a specified material is unavailable, discontinued, or subject to unreasonable lead times, the Contractor may substitute a material of equal or greater quality, colour and durability with prior notice to the Customer. Where reasonably practical, sample images or product cuts will be provided before the substitution is installed.

10. Indemnification

Each party shall indemnify and hold harmless the other from any claims, losses, damages, costs and expenses arising out of the indemnifying party's negligent acts, omissions or breach of this Agreement, except to the extent caused by the negligence or wilful misconduct of the indemnified party.

11. Governing Law

This Agreement shall be governed by and construed in accordance with the laws of the Province of **Ontario** and the federal laws of Canada applicable therein. The parties attorn to the exclusive jurisdiction of the courts of Ontario.

12. Warranty — Hardscape Craftsmanship (5 Years)

The Contractor warrants the craftsmanship of all hardscape work — including paver installation, base preparation, edge restraint, polymeric sand jointing, and natural stone step construction — for a period of **five (5) years** from the date of substantial completion. This warranty covers settlement, lifting, lateral movement and joint failure directly attributable to defective installation by the Contractor.

13. Warranty — Carpentry Craftsmanship (1 Year)

Where the Services include carpentry work (decking, fencing, pergolas or similar), the Contractor warrants the craftsmanship of that work for a period of **one (1) year** from the date of substantial completion, covering defects in fastening, framing and finish carpentry attributable to the Contractor.

14. Warranty — Landscape Lighting Craftsmanship (5 Years)

Where the Services include the installation of low-voltage landscape lighting, the Contractor warrants the craftsmanship of that installation for a period of **five (5) years** from the date of substantial completion. Manufacturer warranties on the lighting products themselves (including In-Lite fixtures and transformers) are passed through to the Customer in addition to this craftsmanship warranty.

15. Warranty — Electrical, Plumbing & Sub-Contractors (3 Years)

Work performed by licensed electrical, plumbing or other trade sub-contractors engaged by the Contractor is warranted as to workmanship for a period of **three (3) years** from the date of substantial completion, in addition to any warranties offered directly by the sub-contractor or manufacturer.

16. Warranty — Artificial Turf Craftsmanship (5 Years)

Where the Services include the installation of artificial turf, the Contractor warrants the craftsmanship of the base preparation, seaming and edge fastening for a period of **five (5) years** from the date of substantial completion. Manufacturer warranties on the turf product itself are passed through to the Customer.

17. Warranty Notes

17.1 Live Materials. Plant material, sod, seed and other live installations are warranted only against installation defects for 30 days; long-term survival depends on customer aftercare and environmental factors and is not warranted.

17.2 Efflorescence. A natural whitish bloom that can appear on new concrete pavers as they cure. Efflorescence is a characteristic of the product and is not covered under this warranty.

17.3 Colour Variation. Natural stone, concrete pavers and manufactured products will exhibit colour and texture variation between batches and over time. Such variation is normal and is not considered a defect.

17.4 Joint Sand Settling. Polymeric sand may settle slightly within joints during the first season as the installation cures. Top-up during the first year is included as part of normal aftercare on request.

17.5 Customer Modifications. This warranty is voided in respect of any area of the work that is altered, repaired, modified, sealed or built upon by the Customer or any third party without the Contractor's prior written consent.

17.6 Exclusions — Acts of God. Damage caused by flood, fire, storm, frost heave outside of normal conditions, vehicle impact, vandalism, or other forces beyond the Contractor's reasonable control is excluded.

17.7 Exclusions — Drainage. Pre-existing drainage or grading issues on the Worksite that are not part of the Scope of Work are excluded; the Contractor will identify any such concerns prior to or during construction.

17.8 Exclusions — Tree Roots & Soil Movement. Damage caused by root growth, soil heave, or subsidence resulting from undisclosed subsurface conditions is excluded from this warranty.

17.9 Exclusions — De-icing Chemicals. Damage caused by the use of salt, calcium chloride or other de-icing chemicals on hardscape surfaces is excluded.

17.10 Exclusions — Improper Use. Damage resulting from use of the installed work outside of its intended residential pedestrian or vehicular load class is excluded.

17.11 Transferability. This warranty is extended to the original Customer at the Worksite address shown on this Agreement and is not transferable to subsequent owners.

17.12 Claim Process. Warranty claims must be submitted in writing to info@goldenmaplelandscaping.ca with a description of the issue and photographs. The Contractor will inspect the work within a reasonable period and, where the claim is valid, will repair or replace the affected portion of the work at its discretion.

17.13 Warranty Period Commencement. All warranty periods commence on the date of substantial completion of the Services, defined as the date the final walkthrough is completed and the final balance is invoiced.

18. Acknowledgement

By signing the Proposal Sign-Off page, the Customer acknowledges receipt of and agreement to all of the Terms, Conditions and Warranty provisions set out in this section. This Agreement, together with the Scope of Work, Revised Estimate and Payment Schedule, constitutes the entire agreement between the parties for the Worksite and supersedes all prior proposals, agreements and understandings, written or oral, including the previously signed proposal between the parties for this Worksite.

No amendment, modification or waiver of any provision of this Agreement shall be effective unless in writing and signed by both the Customer and an authorized representative of the Contractor. The failure of either party to enforce any provision of this Agreement shall not be construed as a waiver of that provision or of the right to enforce it later.

The headings used throughout this Agreement are for convenience of reference only and do not affect the interpretation of the provisions to which they relate. If any provision of this Agreement is held to be invalid or unenforceable, the remainder of the Agreement shall continue in full force and effect.

THANK YOU, RANDY.

We're looking forward to building this for you. Every detail in this document — from the base depth to the joint sand to the limestone tread selection — has been thought through with the same care we'll bring to the Worksite. When the dust settles in Spring 2026, you'll have a patio and step system that does its job for decades.
